Send claims securely and automatically to Zelis for their advanced capabilities at every level

**AN INTEGRATED SOLUTION
BUILT INTO YOUR EXISTING
PROCESSES**

ZELIS PAYMENTS & SPYGLASS

Beacon has built controls into the SpyGlass payment processes that capitalize on Zelis' powerful and flexible payment capabilities. Maximize simple electronic payments and route to more traditional outputs as each provider warrants. The most advanced system for claims processing meshes with the industry leader to provide all the right expertise with the best network connections.

- 01** Seamless, automated integration into the check cycle process
- 02** Precise routing capabilities give providers complete flexibility with their payment options
- 03** Enables the option to electronically pay as many providers as possible, with all the right detail

ACH PROCESSING

VIRTUAL CREDIT CARD

CHECK PRINTING

Beacon and Zelis mesh to eliminate the hurdles associated with managing multiple electronic payment options.
